Our History

HDE Building Supply was founded in 2019. We provide building supplies that add finishing touches to residential and business properties. For nearly two decades, our sister company was the go-to source for do-it-yourself builders and small construction companies for quality products for outdoor buildings.

At our customers' requests, we expanded to the residential home and business market, providing quality building products to homeowners and construction companies worldwide. They knew they could count on HDE Building Supply for excellent quality at affordable prices with outstanding customer service.

HDE Building Supply stocks a wide range of products, including doors, fiberglass and steel, cupolas, shutters, shutter hardware, gable brackets, pediments, gable vents, columns, wraps, metal fabrication, and appliances. Our products are available for new construction and remodels. We are your one-stop source for finishing touches for residential, hospitality, or business properties.

Thomas Slack,
Founder

HERITAGE RESIDENTIAL WINDOWS

COLORS

HERITAGE RESIDENTIAL SERIES

Engineered for exceptional thermal performance; Heritage series residential windows effectively regulate indoor temperatures, providing comfort and energy savings for homeowners. Featuring an attractive beveled frame, traditional grid options, and a host of practical features, our vinyl windows elevate the appeal of any residential project.

FEATURES & BENEFITS

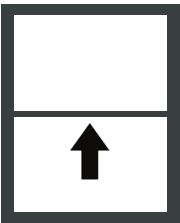

- 3/4" insulated glass with optional stainless steel spacer for excellent energy performance
- Argon gas thermal barrier option available for further improved energy efficiency
- Dual weatherstripping ensures an energy-efficient, weather-tight seal
- Multi-chambered frame and sash design maximizes energy efficiency by minimizing heat transfer

HERITAGE SERIES INCLUDES

- Single Hung Windows
- Transom Windows
- Picture Windows
- Casement Windows
- Awning Windows
- Trapezoid Windows
- Sliding Glass Doors

SILVER LINE IMPACT & NON-IMPACT WINDOWS

COLORS

SILVER LINE SERIES

Whether you're replacing windows, expanding your home, or building new from the ground up, Silver Line provides the reliability, low maintenance, and affordability you're looking for in a vinyl window. We manufacture our products with proven, high-tech processes such as fusion welding for added durability and weathertightness. This standard of quality and attention to detail has been part of our heritage for 70 years.

FEATURES & BENEFITS

- Designed for new construction or easy window replacement
- Simple design blends with virtually any décor
- Tilt-in bottom sash for easy cleaning
- Fusion-welded vinyl for durability
- Integral J-channel is optional for attractive trimming of exterior siding
- External and Internal Grilles
- Available with glass options that are ENERGY STAR® certified for greater energy efficiency

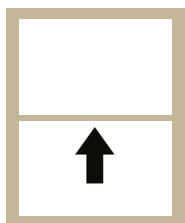

TOUGHER WINDOWS FOR COASTAL AREAS

Impact-resistant glass and structural upgrades are available to meet tough coastal area building codes. See your local building code official for specific requirements.

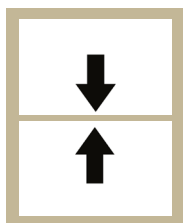

SILVER LINE SERIES INCLUDES

- Single Hung Windows
- Double Hung Windows
- Transom Windows
- Picture Windows
- Casement Windows
- Awning Windows
- Trapezoid Windows
- Sliding Glass Doors

JELD-WEN SERIES

Durable, energy efficient, and budget-friendly, JELD-WEN® Vinyl windows are made of high-quality extruded vinyl that resists fading and won't chip or peel. They feature a narrow frame and sash profile for an attractive, streamlined appearance that's low maintenance by design. With ample operating types and aesthetic options available, they are a cost-effective, entry-level choice for both new construction and home renovation.

FEATURES & BENEFITS

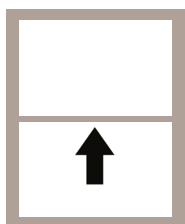

- New Construction
- 3 Exterior Colors, 2 Interior Colors
- Energy Efficient, Tinted, Textured and Protective
- Maintenance Level Minimal
- Grilles Between the Glass
- Integral Nailing Fin, Flush Fin, J-Channel
- ImpactGard® - Tested to Stand Up to the Strong Impacts of Windborne Debris
- Lifetime Warranty

JELD-WEN SERIES INCLUDES

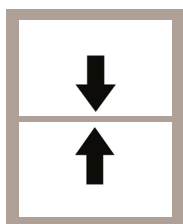

- Single Hung Windows
- Double Hung Windows
- Transom Windows

ESTATE RESIDENTIAL WINDOWS

COLORS

ESTATE SERIES

The Estate system offers a sturdy 3-1/4" frame depth, paired with eco-friendly features for conscientious builders. It's R5-rated, low-emissivity, argon-filled triple-pane glazing ensures top-notch thermal performance, while the all-welded, weather-resistant vinyl sash contributes to durability and sustainability.

FEATURES & BENEFITS

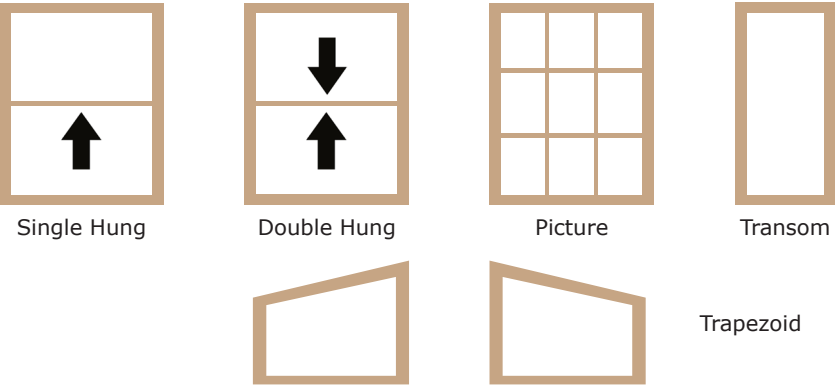

Crafted with PVC profiles featuring multiple chambers for optimal insulation, Estate series windows maximize energy efficiency and minimize environmental impact, making it an ideal choice for eco-conscious building projects.

ESTATE SERIES INCLUDES

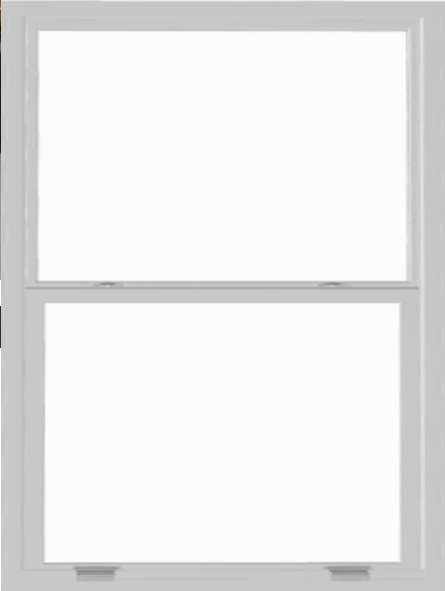

- Single Hung Windows
 - Double Hung Windows
 - Transom Windows
 - Picture Windows
- Casement Windows
 - Awning Windows
 - Trapezoid Windows

PGT SERIES

The PGT series of windows offers peace of mind from storms, stray baseballs, sound pollution, UV rays, and would-be intruders. Heavy-duty frames hold impact-resistant glass, which acts as the primary line of defense against life’s most demanding situations. The top brand of impact-resistant products also saves you time and money.

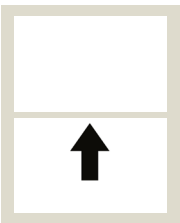

FEATURES & BENEFITS

WinGuard Vinyl’s multi-chamber window and door frames reduce heat transmission and help keep your energy bills lower year round. Impact-resistant products also help reduce insurance premiums while increasing the overall value of your home.

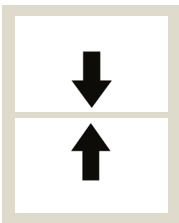

PGT SERIES INCLUDES

- Single Hung Windows
- Double Hung Windows
- Transom Windows
- Picture Windows
- Casement Windows
- Awning Windows
- Sliding Glass Doors
- French Doors
- Cabana Doors
- Impact Storefront Doors

CLOSET STORAGE - ORGANIZED LIVING

Organized Living provides ideal storage solutions for every room in your home, from linen closets to pantry closets. Our products are crafted to simplify your daily routines, whether you're organizing a bedroom closet or designing the perfect pantry. Explore our range of options and find inspiration to bring order to every area in your home.

VENTILATED WIRE

STANDARD FIXED SHELVING

We offer two economical fixed Ventilated Wire systems for our Builders. Shelftech™ is our economical grade wire shelving for price-conscious projects, matching the competition. Lifetime™ is the strongest fixed wire solution available on the market, holding 75 lbs per linear foot of shelving, providing the strength and durability homebuyers expect.

VUE

REFINED FIXED WOOD SHELVING

VUE® is a refined fixed wood shelving that provides the look and strength homebuyers expect. VUE is the new standard for Builders and the perfect step up for homebuyers who prefer solid shelving over wire.

BUILT-IN - SELECT

TRADITIONAL BUILT-IN STORAGE

Traditional built-in storage is ideal for homebuyers who know exactly what they want. Select® offers high-quality features and accessories to give Builders the high-end look and feel homebuyers love.

BUILT-IN - CLASSICA

CUSTOM STORAGE WITH BUILT-IN LUXURY

Custom storage with built-in luxury, Classica™ combines beauty and strength to create custom storage solutions designed to last a lifetime. Classica maximizes form and function for the homebuyer who clearly understands their storage needs.

ADJUSTABLE - FREEDOMRAIL

TRULY ADJUSTABLE STORAGE

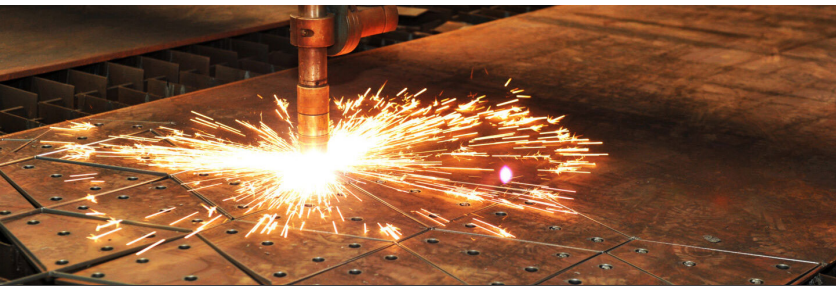

freedomRail® is the only truly adjustable storage system that can be used throughout the entire home. Confidently offer freedomRail in the homes you build, allowing homebuyers to transform the look and function of their space without tools, after move-in.

Find Your Closet Inspiration and Give Us A Call At (843)399-2568

Metal Fabrication

As builders or architects, you can easily and quickly add structure and beauty to homes or commercial properties using Metal Fabrication services. Metal Fabrication has a large range of abilities to enhance and strengthen the look of your client's home, apartment, or commercial building. Metal Fabrication is designed for custom one-offs of items or full manufacturing production runs. With our staff and equipment, the sky is truly our limit.

CNC PLASMA CUTTING

Plasma has a number of advantages over other forms of metal cutting, which explains why we use it extensively in order to give customers the products they're looking for. Plasma metal cutting can be used on all electronically conductive materials; it's particularly suitable for cutting steel and in some situations aluminum.

FIBER LASER CNC SHEET CUTTING

The major thing that makes laser cutting machines great is that they can cut metal very accurately. Laser cutting uses a high-powered laser that focuses the laser beam to burn, melt, vaporize and is blow away by a jet of gas to leave a high-quality surface finished edge. Our lasers can cut through metals like aluminum, brass, and copper.

SHEET / PLATE CUTTING
Carbon Steel – up to 1 inch (26 mm)
Stainless Steel – up to half inch (13 mm)
Aluminum – up to half inch (13 mm)
Max allowable sheet size is 59" by 118"
(1.5 Meters by 3.0 Meters)

TUBE CUTTING
1 inch to 7 inch (25-200mm) outer
diameter for tube cutting.
Round, square and rectangle profiles

TOLERANCES
Kerf compensation for both inside and
outside contours we can hold a tolerance
of +/-0.005" or better.

SERVICES & PRODUCTS

- Metal Fabrication & Laser Cutting Services
- 2D & 3D Metal Signs
- Privacy Screens & Panels
- Hand Rails & Balconies
- Tables & Table Legs
- Sculptures & Monuments
- Architectural Components
- Corbels
- Truss Brackets & Plates
- Hidden Shelf Brackets
- Awning/Overhangs
- Industrial Fabrication & Embedment

FIBER LASER CNC TUBE CUTTING

Laser Tube cutting saves time and reduces the number of components needed for a build. With laser tube cutting we can offer new applications or improve existing ones within industrial sectors and increase profit margins by creating tubular frames and metal structures that are more precise and faster to assemble.

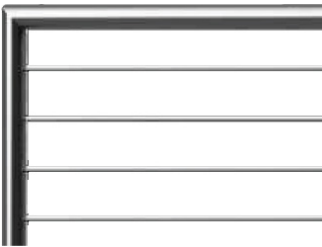

PART FINISHING & DEBURRING

Parts will be attractive, smooth and ready to use. Our laser cut deburring/finishing process is included – but not all finishes are equal. Some more detailed finishes can impact lead times & pricing. If you are wondering which class of finish suits your project's requirements- please reach out with your questions.
